Listings at risk of deactivation due to unauthorized patent use

Hello HWHIEUAIK-US,

The following listings are at risk of deactivation due to violations of our policies. You can find details of the at-risk listings below.

We are reaching out to you about this issue before it impacts your ability to sell so we can resolve this with limited impact to your business.

Why is this happening?

We are taking this action because we received a report from a rights owner alleging that your listings may infringe on the rights owner's patent. The rights owner communication about the alleged infringement and the listings at risk of removal are at the bottom of this message. Listing content infringing on the intellectual property of others is a violation of the [Amazon Intellectual Property policy](#).

Are your listings at risk of deactivation in error?

If you believe that there has been an error, complete the following actions through your Account Health page to prevent the deactivation of these listings. You will need to resolve this issue before the date listed in the "Action Taken" column next to the impacted listing.

1. Contact the rights owner who submitted the notice and ask them to submit a retraction. Only retractions submitted by the rights owner directly to Amazon will be accepted. Amazon does not accept forwarded or attached retractions. Rights owner contact information is provided at the bottom of this email. If the rights owner does not retract their complaint, or you do not provide supporting information, your contact information may be provided to the rights owner upon their request.
Or
2. Provide an invoice, letter of authorization, or licensing agreement from the manufacturer or rights owner demonstrating that your products are lawful. To submit documentation through your [Account Health page](#), click "Appeal" next to the impacted listings and follow the instructions provided.

What happens if I do not provide the requested information?

If we do not receive the requested information, the impacted listings will be deactivated. If we receive additional complaints about your listings, we may deactivate your Amazon seller account. Deleting your listing on this ASIN does not sufficiently address the reason for the violation and will not result in its removal from your Account Health page.

We're here to help.

If you have additional questions, [contact Selling Partner Support](#).

Amazon Services

Rights owner details:

- James Thornton
- jamesthorntoncontact@gmail.com

Rights owner communication: Dear Amazon, I am the patent holder of U.S. Design Patent No. D1,056,616 S for a tumbler lid design. It has come to our attention that the product sold under ASIN: B0DSJRM8D, as well as all related variations, infringes on this patent. The product closely resembles the patented design, including the circular lid structure, flip straw mechanism, and unique ornamental features. We believe this creates confusion for consumers and violates our patent rights. We request that Amazon immediately remove the infringing product and all related variations from all sales channels. Please provide written confirmation of compliance within 10 business days. Failure to act may lead to further legal steps, and our attorneys will initiate the TRO (Temporary Restraining Order) procedure. Thank you for your attention to this matter. Sincerely, Xinjie Dai

ASIN: B0DRVBT6NG

Title: 2 Pack 30 oz Tumbler Detachable Flip Straw Lid Replacement Fit for Stanley Quencher ProTour,Leak Proof Lid Compatible with Stanley Cup,No Spill Flip Top Tumbler Cover for Stanley Cup Accessories

Violation type: DesignPatent

Complaint ID: 17242625271
