Compact & Cord-Free Charging Solution – Great for Home and Travel

Reviewed in the United States on August 2, 2025

Color: black **Verified Purchase**

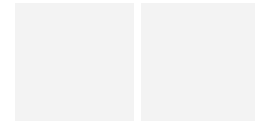

I got this upgraded 3-in-1 wireless charging station as one of my husband's birthday gifts, and it's been a fantastic addition to our living room setup.

Although it's designed for newer iPhones, we found that it works just fine with his iPhone 11 Pro as long as you use a magnetic phone case. That little tweak made all the difference—and now he can charge both his phone and Apple Watch on one sleek, foldable stand.

One of the best parts? We were able to clear off all the messy cords from our end table and replace them with this single, compact charger. It looks so much cleaner and makes charging super easy—just set the devices on and go.

He's also excited to take it on trips. He usually borrows my chargers when we travel, so having his own all-in-one setup will be a game-changer for both of us.

Love this charger! Its charges quickly and the size is perfect for traveling. It folds up really easy and is very sturdy. One charger for three different devises makes it so much easier than needing multiple chargers. Great value for the money and highly recommend.

Charges well, strong magnet

This is an excellent charger. It replaced a cradle charger that I had that was hit or miss. It has a strong magnet and I have one of those cases that has a hole around the apple, so it works perfectly! I'm going to purchase more for the other bedrooms.

Solid, Compact Charger for Desk and Travel

Reviewed in the United States on June 9, 2025

Color: white **Verified Purchase**

This is a great little unit I need to charge all three things at once. I take this along when I'm traveling and it folds up neatly. The magnetic hold for the phone and watch are solid and I rotate my phone to catch a few shows.

This is a good value and very sturdy. I like the over all feel and how it folds up. Although the light feature is there, I usually turn it off since it is distracting to me. Also, when I'm watching a show off the phone, the over all stand is tilted a little upwards for viewing, but the watch slides off. This is not a deal breaker.

Overall, I like how this is so compact and easy to pack and it came with its own charger and cord. It is solid and well built. This is a good buy. Enjoy!

Amazing Product

Reviewed in Canada on June 2, 2025

Color: black **Verified Purchase**

I've been using the 2025 Upgraded 3-in-1 Wireless Charger for a few weeks now, and it's hands down one of the best tech purchases I've made this year. It charges my iPhone 15, Apple Watch, and AirPods Pro all at once, saving me space and eliminating the clutter of multiple charging cables. The 15W fast charging is noticeably quicker than other chargers I've used, and the MagSafe compatibility ensures a strong, stable magnetic connection every time.

The foldable design is incredibly convenient—I love how compact it becomes for travel or when I want to keep my desk tidy. It even has a soft ambient light that adds a modern, calming touch to my nightstand setup without being too bright or distracting at night. Another huge plus is that it comes with a 20W adapter, which many brands make you buy separately.

The materials feel premium, the build is sturdy, and the charging performance is consistently reliable. Whether I'm working, sleeping, or on the go, this station keeps all my devices powered and ready. If you're in the Apple ecosystem and want something that looks great, works perfectly, and simplifies your life—this is it. Totally worth the investment!

Perfect for decluttering desks or nightstands—highly recommend for anyone invested in the Apple ecosystem!

Excellent charger!

Reviewed in the United States on December 7, 2024

Color: White Verified Purchase

This is the best charger I've ever had. It's well made, and is portable - folding up into a nice little square box makes it easy when travelling. I can turn off the base light and not have my phone or watch light up during the night to disturb me. The magnetic hold is strong - my phone never slips off. I like that my watch freely hangs on the back of the charger. I wish I had bought this a lot sooner!

Received faulty charger

It worked great in the beginning but went and went downhill after about a month. It was too late to return and I was unable to contact the seller. Whenever I charge my Apple Watch the light starts to glitch I turn it off and it will continue to flicker on/off. It also will not charge my Apple Watch and AirPods at the same time. It takes a while to charge my iphone 16 and makes it hot so I don't keep it on there long. Not happy with this product at all and haven't even used it for six months.

Really convenient form factor, especially for travel

Reviewed in the United States on December 10, 2024

First - this has a really convenient form factor, especially for travel. It folds up nice and tight, and that's the big plus. On the negative, it's really light weight, making less of a good option for bedside.
