These are nice and they have multiple uses. I put them in my potted plants, I have used them for crafts, Halloween decor, and always get asked where I found them. Neat product. Will buy again.

I actually thought when ordered was plastic, to my surprise they are well made, and not plastic. Size is perfect and you can still see the detail in the skeleton face, great value for the money. Beautiful

These little skulls were a perfect addition to my grown nephews mini RC crawler course that he is still building/ crafting. He has only placed 10 skulls so far but because we ordered the pack of 40, he has 30 more to place as he wishes too. They are small but that works out fairly well for his 1/18 scale trucks and course.

I purposely chose the mini skull figurines that were white with black eyes. What was sent to me were solid clay color and they were undetectable that the figurines were actually skulls. VERY disappointed!!! Would like a refund.

Amazon Vine Customer Review of Free Product (What's this?)

These are quite small and don't even float upright. They fall over and lay on their sides so it defeats the purpose of having a shark fin.

Neat molds but a little on the small side

Reviewed in the United States on October 23, 2024

Amazon Vine Customer Review of Free Product (What's this?)

Got for our son in law who is a big fan of all things shark. The molds make these ice cubes that float in the drink like little fins poking up over the water. Only thing is they are really small so they melt fast. The duration of a shark attack can vary, but it typically lasts only a few seconds. These ice cubes will last just a little bit longer...

★★★★☆ **Great beard, but be careful when unpackaging.**

Reviewed in the United States on August 13, 2024

Amazon Vine Customer Review of Free Product ([What's this?](#))

This is a great beard for the price but be careful when unpackaging it. It came stapled to a somewhat creepy looking piece of cardboard. If you are giving this to a child to open or play with be wary of the staples. Other than the staples, it's not bad looking and would be good for a few uses. For the price, it's well made and fits an average size face pretty good.

The beard is thin and somewhat scratchy, but is a decent value option for the price. It will work well for a craft project.

 Decent set of fake rats. Going to probably glue them onto skeletons for a Halloween direction. They look pretty realistic. Seem strong.

These were for a prank at work. The eyes are creepy but it's the gift that keeps on giving. It's a little bigger than a real mouse but still funny anyway for our prank wars.

These two fake rats did the trick in my Halloween porch display. They are a realistic size and made of plastic which is colored to stop trick or treaters in their tracks! Had lots of fun using them for decoration. Decent price as well.

These tiles are as advertised. There are no major concerns or issues if it is what you are looking for. They do seem a little cheap and I am unsure about durability.

★★★★☆ Elevate your dollhouse!

Reviewed in the United States on September 22, 2024

[Amazon Vine Customer Review of Free Product](#) (What's this?)

I love these floor tiles! Classic design, they come with sticky tabs. The only downside is each tile is small, which is good for customization. I didn't want to stick them just yet because my 4.5 year old likes to change things and they have a tendency to go all over the place when bumped. But they are sturdy and look very cute!

[Amazon Vine Customer Review of Free Product](#) ([What's this?](#))

I set this little guy on my bookshelf and he is just the classiest, cutest touch to my space! While he is little, he has some weight to him and I very much appreciate that he is solid brass.

Wonderful quality!

[Amazon Vine Customer Review of Free Product](#) ([What's this?](#))

This is a very nice looking grasshopper. It is brass with antiqing to show the details. It is heavy relative to its size. The piece is nicely molded with lots of realistic detail. This is a very nice quality brass grasshopper.

[Amazon Vine Customer Review of Free Product](#) (What's this?)

Nice glass bottles but sometimes hard to roll. I wish the gold color was a little less shiny but still ok.

★★★★☆ Small bottle

[Amazon Vine Customer Review of Free Product](#) (What's this?)

Two pieces because it's a bottle & lid Very small & hard to open. You can do it after a while of trying but if you are hard of visualizing or seeing you may just want to leave this as a pretty decoration you have or wait for someone to help you with opening it.
