Used as part of a cake topper decoration. Hold up well and look cute next to the penguins we used. Easy to wash up and use as a toy after we were done.

Just what we needed for arctic sensory bin play! The pre k kiddos in my daughters class wanted to learn about polar bears and eskimos so I took in upon myself to gather these cute figurines for the teacher and drop off for sensory bin station. Happy to report the teachers loved and the kids loved even more!

Bows on these are very cute. My daughter wanted a Shirley Temple bar at her graduation party and we used these as the picks for cherries. Durable.

★★★★☆ Cute but a little flimsy

Reviewed in the United States on April 20, 2025

Amazon Vine Customer Review of Free Product (What's this?)

These picks are really elegant and dress up a drink nicely. There are 60 in a pack so there are plenty, which is good because they are a little flimsy and I broke a couple. But the price is decent and at only about 6 cents per pick, it wasn't a big deal to me that I lost 2 or 3.

- Desiree Light

Can't believe the quality of this for it only being \$10!!!

Reviewed in the United States on March 28, 2025

Amazon Vine Customer Review of Free Product ([What's this?](#))

I cannot believe the incredible quality of this wood bunny shaped cutting charcuterie board! I still can't get over the fact that this was only \$10. Quality is out of this world and it's cuteness factor is another level. It's not to big nor to small. This will be perfect to pair with a few other colors and sizes of cutting boards to decorate our kitchen countertop. This would also look cute next to or on top of a few coffee table books and a aesthetically pleasing candle. I probably won't use this as a cutting board as it's to adorable to ruin but will definitely be using this to make dessert and or snack charcuterie boards every Sunday night when me and my husband watch a movie together after kids go to bed. This would make as an adorable gift for anyone who loves to cook or even as a housewarming present. Such an incredible deal I might have to purchase a second one while it's still available.

Attractive Smaller But Strong Quran Or Holy Book Wooden Stand

Reviewed in the United States on March 1, 2025

Amazon Vine Customer Review of Free Product (What's this?)

I wanted a nice way to keep my new Quran open and visible after I find a surah that I want to keep visible. This carved wooden stand does that nicely. It's cool how you insert both sides together to "construct" the holder as this makes it easy to transport or store. The only thing that I wish was different was that the wood was thicker. While it is on the thin side it definitely is sufficient in strength for holding the book safely. This stand is different than the thicker and wider Indian made book stands, but that's not a bad thing. In some ways the simplicity of this stand is one of its strengths. This would make a great gift for a revert or someone who was born into Islam or embraced Islam long before. Basically, it's a great Islamic stylized portable and attractive stand for anyone wanting to keep their revered book open, available, and securely in place. This is a nice book stand that I would recommend to any Muslim or even anyone wanting an attractive book stand for an incredibly reasonable price.

Nice looking cuffs! Great to add a bit of length to some of my shorter sweaters and business jackets. Looks very professional and when used correctly no one would know they weren't a whole shirt!

Amazon Vine Customer Review of Free Product (What's this?)

These are so cute! I saw Blake lively wearing them in her latest movie. I have been experimenting with Cuff to give me and my outfits a new and fancy look. It's fun to style these. You can style them with sleeves or even without leaves. So much fun! I look cute!

Amazon Vine Customer Review of Free Product (What's this?)

These little chairs are really cute and fun to use in a dollhouse. They look just like real folding chairs, and they even open and close! The size is perfect for small dolls, and they fit nicely at a mini table. I also like that they can hold a phone, which is a funny bonus. The colors are bright and cheerful, and each chair feels sturdy for how small it is. They add a playful touch to any dollhouse scene or desk setup. It's fun to set them up and move them around. A great little set for creative play!

Amazon Vine Customer Review of Free Product ([What's this?](#))

These plastic folding chairs are a fun way to prop up your phone. I got them for my dollhouse, and they are just about the right size for 6 inch action figures to sit on. Maybe just slightly big but they are still going to work perfectly. The whole thing is made of plastic but it still looks good.

     **Awesome Hooks**

Amazon Vine Customer Review of Free Product ([What's this?](#))

I ordered this set of 4 gold wall hooks. I really love them. They come with hardware to install. I love that you can fold them up when you are not using them. I put one in the shower, one by my tub and two in the hallway. The gold is a perfect match with my bathroom decor. I used a glue instead of the hardware & have no issues!

different drywall anchors to make sure it was extra sturdy, but other than that, these are great. The hooks themselves are a beautiful soft brushed gold and they are solid and heavy. I'm not sure exactly how much weight these could hold but on hook holds my purse (about 4lbs if I have a water bottle in there) easily. They are easy to open and close which is nice as well. I really like that when I'm not using them, they can be folded up to conserve space unlike the command hooks I was using previously. Overall, for the price, quality, and functionality I think these are a 10/10!

Amazon Vine Customer Review of Free Product ([What's this?](#))

I love these butterflies! The quality and craftsmanship are fantastic! I didn't expect them to be made of glass and that makes them more striking in person. The only downside is, I can't keep them to stay straight on my pots. I have them on thinner pots, so that may be issue. I am getting more of these to use on my other plants throughout the house. You cannot go wrong with these little gems!

Glass & metal materials. Good quality for the price!

Amazon Vine Customer Review of Free Product ([What's this?](#))

It took almost two weeks to receive these, but it was worth the wait.

The listing is extremely vague, as far as if these are glass or some sort of plastic material; at least when I got them. I took a chance anyways. They ARE glass! Yay! A plastic / acrylic material may end up looking "cheap".

The design / build quality seems good. I definitely don't get a "dollar store" feel from these. Nice quality for the price.

The colors are vibrant and so pretty!

These make a really nice addition to my plants! I'm really happy!

 **Excellent for MMA. Fits perfect, comfortable and protective**

Reviewed in the United States on May 16, 2025

[Amazon Vine Customer Review of Free Product](#) ([What's this?](#))

Excellent for MMA. Fits perfect, comfortable and protective!

My son has been hit in the groin once and that was enough for us to need to get something to make sure he is protected during his intense sparring matches. This was an excellent buy it fit him really well (age 12) He had issues with wearing a cup in the past as he mentioned it rubbed and was uncomfortable. This did not give those issues. He wore under his shorts on top of his boxers. Perfectly stayed in place is hard enough to fully protect, but padded enough that it stays comfortable throughout. Highly recommend this, will really be happy they had it when it comes to getting hit there!

 **Not Just For Kids - Guys Can Wear XXL**

Reviewed in the United States on May 23, 2025

[Amazon Vine Customer Review of Free Product](#) ([What's this?](#))

I'm a gym dude with a 33-inch waist and no time for weak gear. Snagged the XXL—fit like a dream. This groin guard isn't just for kids—I gave it a real-world test drive myself. No slipping, no pinching, no "oops" moments. It protects the goods perfectly.
